Alumni Testimonial

Talal Alkhalaf

Mechanical Engineer

Ma'aden, Saudi Arabian Mining Company

"Aside from being a great home for assertive and ambitious students, Alfaisal University as a whole and the Alumni & Placement Relations team specifically have helped me in the aftermath of my academic journey.

I was offered a job opportunity through the APR team to work for Carrier Saudi Arabia, a multinational airconditioning company. Despite being short, the time I spent there was priceless and full of potential. However, I have received a better offer from Ma'aden Aluminum Company and resigned from Carrier during my probation period. Leaving Carrier was a very dreadful decision, because I was learning a lot, experienced standardized work ethics. This allows me to proudly recommend seeking the help of the valuable resources of our university, one of which is the APR Team"
